

TYPE-A

TYPE-A

Type A High Chairs are used for supporting upper slab steel in slabs directly or by means of a carrier bar. The chair base is standard for all sizes up to 10" and is made of high impact material. The cradle is made with 1/4" wire. Lightweight for handling yet strong and stable.

TYPE-A SAND PLATE

Type A Sand Plates are designed for use with the Type A High Chair. The chair base simply slides into slots on the plate for a snug connection. Chairs with sand plates are used for slabs on grade with sand, foam and vapour barrier. Can be shipped as a complete unit or separately for quick and easy assembly at the job site.
