OIL Blocker

Oil Containment Barrier

Albarrie GeoComposites OIL Blocker

Oil Blocker is an effective **Oil Spill Prevention Control** and Countermeasure System using “smart fabric” technology.

Designed to control and **keep an oil spill within your property**, it is an economical alternative to full secondary oil containment.

PROTECTION YOU CAN TRUST

- Flexible and Easy to Install.
- Seals and traps in hydrocarbons.*
- UV resistant.
- Allows water to pass through.
- Meets SPCC Regulations.
- Assists in minimizing damage caused by escaping oil.
- Effective mitigation measure.

SPILL CONTROL AND COUNTERMEASURE SYSTEM

- Install around a substation fence or individual oil filled equipment.
- Economical alternative to full containment.
- Mechanically bound between two nonwoven geotextiles.
- No shifting of the polymer during handling, cutting or installation.
- Custom sizes

*for specific hydrocarbons contact us.
